## 6 White Burgundy Wines You Just Can't Ignore

The white wines from France's famed Burgundy region—not always but most often Chardonnay—are some of the most beloved from around the world. The region's cool climate and limestone-rich soil yield exceptional bottles, whether it's a splurgy Grand Cru for special occasions or an affordable everyday option from one of the larger appellations.

"There's something about the complex aromas of white Burgundy that you just can't ignore," says Anna-Christina Cabrales, Wine Enthusiast's tasting director. "The refreshing combination of fine elegance or power in citrus fruit balanced with a complex layer of florals and minerality tells me I'm in Burgundy. In developed wines, this only intensifies, but the condition of fruits and florals feel dry or dehydrated with interesting notes of toffee or honey."

### SIMONNET-FEBVRE CHABLIS 2021

An elegant expression with overripe lemons, Anjou pear, white mushroom and wet stone on the nose. The palate is refined with soft minerality that perfectly balances its citrus profile. Delicious and enjoyable now.
